DISPOSITIVOS

de ENTRADA y SALIDA

Periféricos o Dispositivos

Son periféricos o dispositivos que van a permitir la comunicación bidireccional entre un sistema informático y el mundo exterior

A decorative border surrounds the central text, featuring various input devices and connectivity symbols. At the top left is a blue mouse with a red cord. Next to it is a pink folder icon with a white cloud. To the right is a blue USB drive with a white USB-A connector, a blue Wi-Fi symbol, a blue smartphone, and a grey laptop with a pink screen. At the bottom left is a blue mouse with a pink cord. Next to it is a blue Wi-Fi symbol, a grey laptop with a pink screen, a blue cursor arrow, a blue smartphone, and a grey USB drive with a pink cord.

DISPOSITIVO DE ENTRADA

Son aquellos que permiten introducir información al sistema, como el teclado, el mouse(ratón), el escáner, el micrófono, etc.

A decorative border surrounds the central text, featuring various computer peripherals in a stylized, illustrative manner. At the top left is a blue mouse with a red cord. Next to it is a pink monitor with a white cloud below it. To the right is a blue USB drive with a white USB symbol. Further right is a blue Wi-Fi symbol. Next is a pink smartphone. At the top right is a grey laptop with a pink screen. At the bottom left is a blue mouse with a pink cord. Next to it is a blue Wi-Fi symbol. To the right is a grey laptop with a pink screen. Further right is a blue arrow pointing up and to the right. At the bottom right is a pink smartphone and a grey USB drive.

DISPOSITIVO DE SALIDA

Son aquellos que permiten que entre información al sistema para presentarle al usuario, como el monitor, la impresora, los parlantes, etc.

DISPOSITIVO DE E/A O MIXTOS

Algunos dispositivos pueden realizar ambas funciones, como las impresoras multifuncionales que imprimen (salida) y escanean (entrada), o los monitores táctiles que muestran información (salida) y permiten interactuar con ella (entrada).
